

YOU are the **ONE** who can make a difference for child community at a time!

Did you know there are 10,000 children in the Georgia foster care system... and not nearly enough volunteers, resources, or foster care families to help kids who desperately need love and support, right now? They're as young as a few weeks old and come from a wide variety of races, religions, and family backgrounds, but our kids have ONE thing in common: a heartfelt hope that someone will show them kindness and love, ONE small way at a time.

Maybe you can volunteer a few hours of your time. Maybe you can free up a few resources to provide practical support. Maybe you're even open to exploring how to become a foster parent yourself. Any step counts: what's the ONE thing you're able to do to help ONE child, right now?

I'd like to explore being a foster parent
